*“Above all, **the Gospel must be proclaimed by witness.** Take a Christian or an handful of Christians, who in the midst of their own community, show their capacity for understanding and acceptance, their sharing of life and destiny with other people, their solidarity with the efforts of all for whatever is noble and good. Let us suppose that, in addition, they radiate in an altogether simple and unaffected way their faith in values that go beyond current values, and their hope in something not seen and that one would not dare to imagine. **Through this wordless witness these Christians stir up irresistible questions in the hearts of those who see how they live.** Here we have the initial act of evangelization.”*

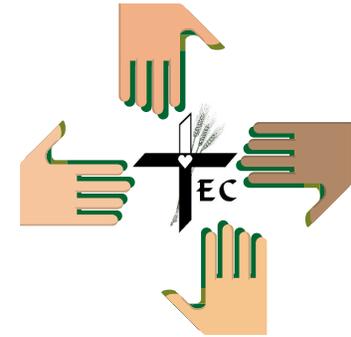

*~ Pope Paul VI
Evangelization in the Modern World*

*“Young people who have participated in TEC over the past 25 years in our diocese are now our leaders. As I look at our young priests, lay ecclesial ministers, community leaders and Catholic school teachers, I recognize that we all grew up in a culture of great comprehensive youth ministry and TEC was a vital part of that. TEC allows young people a safe place to explore their faith and encounter Jesus in a very intimate way. That encounter can change their life, focus their direction, encourage their gifts and talents and provide them a community where they can grow and flourish in their faith.
TEC makes a difference!”*
